

## **9mm BROWNING PISTOL STORAGE RACK Part No. BDI 18300-2x4**

The pistol rack is a modular design enabling Bale Defence Industries to design and build the storage system to your needs, maximising the use of space in the armoury or storage area without compromising security.

The locking system used in Bale Defence Industries Pistol Storage Racks is approved. This ensures the highest degree of security for your weapons.

Bale Defence Industries has designed this particular storage system for 9MM Browning Pistols for the Australian Defence Force and is able to design differing weapon configurations to suit operational requirements.

All Storage systems can be either plug welded or securely bolted to a bulkhead using hidden or security fasteners.

The materials used in the construction of the racking are from 316 S/S and thermoplastic.

Parameters: 510mm (H) x 400mm (W) x 170mm (D) x 22kg.

Designed and manufactured in Australia.
