

50 Cal Barrel Rack - Navy

Stowage: Operational, Spare and Blank firing barrels in line (matched sets).

Due to the modular design of the unit; the size, capacity and configuration can be varied according to specific requirements (3 to 36 Barrels).

The racks are manufactured from 316 stainless steel and thermoplastic material.

Designed for stowage in confined and restricted compartments, security lock fitted.

Metal components will not scuff, or mar on the thermoplastic housing.

Bale Defence Industries designs, manufactures and supplies high security firearm storage racks to house and secure weapons used by Defence Forces and Law Enforcement Agencies throughout the region.

Parameters (including weapon): Dependant on Configuration.
